

EXCITING NEW FEATURES! Chocolate Factory

Popular with young
and old alike for
more than a decade

Quality components, ergonomic design,
dedicated workmanship and team
pride go inside every game

WGA

THE INNOVATORS ... NOT THE IMITATORS

Superior Engineering Makes the Difference

Ever wonder why the Chocolate Factory is ultra reliable and popular with practically everyone? Have a look at the craftsmanship, quality components, smart features, and detail that make our games unique. Win 'n Grin Amusements is envied by competitors worldwide for innovative game designs, manufacturing quality control standards and unsurpassed customer service.

Built Tough To Go the Distance

Fabricated aluminium cabinet and recessed laminated panels for security from tampering and cash theft, a safer cabinet to avoid injuries, greater durability to minimise wear and tear from normal use and easy damage repairs. With a convenient front door on the storage and components area, the need to move the game for rear access is completely eliminated.

Outstanding Features!

Key Feature

Every game has an excellent resale value - the highest as compared with inferior imitations. Second-hand games are scarce because the Chocolate Factory is so popular.

Key Feature

The majority of replacement parts are shipped overnight express from our extensive inventory which considerably minimises your downtime and profit loss.

Key Feature

Electronic circuit boards provide diagnostic feedback for quick repairs, are designed and manufactured in Australia and have a 5-year back-to-base warranty.

Key Feature

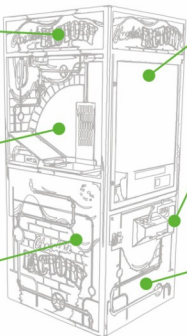

Our technical support service exceeds the industry standard. Most support calls receive immediate, professional and personalised response by telephone or email.

Key Feature

Micro Systems coin mechanism equipped. Accepts different currencies, is jam resistant and is available with a dual micro coin model or a single coin model with note reader.

Key Feature

The superior quality cabinet decals are covered with transparent safety film sheets and the panels are recessed to provide additional protection from damage and wear.

Plenty of New Features!

New Feature

The crane system is positioned higher in the roof section for additional prize space, more room for larger prizes and less restocking trips saving time and human resources.

New Feature

Increased angle of the slide slope easily transports the prize to the push deck increasing player satisfaction and the chance of winning a chocolate reward.

New Feature

The cash box system accepts coins or notes and is strategically located to offer maximum storage space, easy internal access and increased security from thieves or vandals.

New Feature

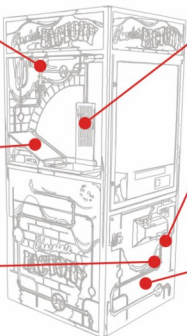

Air conditioned games feature easy access controls for temperature adjustment and a chilled storage area that is especially useful when storing chocolate prizes.

New Feature

Power input through roof and floor. Power switch and fuses under the cash box system for easy access and extra space savings giving you plenty of room for prize storage.

New Feature

A front storage door eliminates the need to move the game for rear access. Games are responsibly designed and built with consumer safety in mind for you and players.

We Can Customise "Graphics - Cabinet Size - Sounds - Game Play"
